MultiFlame

Long range Wide field of view Continuous auto-check of optical lens

DF-TV7-T Multi-spectrum IR Flame Detector

The Simtronics MultiFlame DF-TV7-T is a multi-spectrum infrared flame detector using three wavelengths. The MultiFlame DF-TV7-T responds to hydrocarbon fires and is the right choice for operation in dirty environments or for detection of smoky fires.

The highest operational safety level available

Fewer detectors needed due to enhanced

Ensures safe and proper device operation

Description

The MultiFlame DF-TV7-T is designed to respond to unwanted hydrocarbon fires, whilst maintaining a high degree of false alarm immunity.

The device offers a wide range of output options, as standard and is certified for use in SIL 3 applications. The unit may be interfaced directly with a wide range of fire panels, controllers and PLC's etc.

The unit is fully configurable using a wireless hand-held terminal (TLU600) or optionally via HART (TM) giving true flexibility to the installer. Time delays, sensitivity and output configuration are all set up via the TLU; a hazardous area approved hand-held unit.

Wireless testing of the optical and output circuits are also possible using the TLU.

Applications

- Refineries
- Drilling and Production Platforms
- Fuel Loading Facilities
- Compressor Stations
- LNG/LPG Processing and Storage
- Gas Turbines
- Chemical Plants
- Aircraft Hangars

Features

Certified SIL 3 by an external body Multi-spectrum infrared flame using three

wavelengths Long range up to 80m, 260 ft deep Wide field of view 120° Relays, 4-20mA, 0-22mA, Hart outputs

Continuous auto-check of optical lens

Selectable sensitivity and time delays

For configuration to each application

Very effective on carbonated fires

Wireless detector configuration and testing Easy maintenance, no need of test lamp using TLU

Benefits

on the market

(bad combustion)

fire detection coverage

Standard industry interfaces

TLU Wireless (IR) Handheld Terminal

DF-TV7-T

Technical Data

GENERAL

Technology	Multi-spectrum Infrared, 3IR	
Fire Types	Hydrocarbon fires	
Range, n-heptane	80m (260ft) 0.3x0.3m (1sq ft)	
Range, gasoline	65m (210ft) 0.3x0.3m (1sq ft)	
Field of view	Maximum horizontal angle 120°	
	Horizontal angle @ 50% 104°	
	Vertical angle @ 50% 82°	
Response time	adjustable from 3 to 20 seconds (typical 6s.)	
Warranty	3 years, back to factory	

OUTPUT SIGNAL

Standard

Alarms

Visual

4-20mA or 0-22mA (configurable by the user) max. load impedance 700Ω (Std.) HART Protocol 7th edition (option) Lonworks for Syntel (option) 2 x configurable Relays max 1A / 30Vcc Normal Operating, alarm, fault

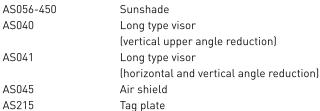

ELECTRICAL

Power supply 24 Vdc, range (18 - 28 Vdc) 2W normal; 4W during test Power consumption 0.3 mm² (22 AWG) - 1.5 mm² (16 AWG) Connection Shielded cable recommended

ENVIRONMENTAL

-40°C to +70°C (-40°F to 158°F) Storage: -40°C to +65°C (-40°F to 149°F) Operation Option Sunshade, max. temp. 85°C (185°F) Humidity 99% RH (non-condensing) Ingress IP66 RFI/EMI Complies with EN50130-4

EXPLOSION PROOF HO	DUSING
Material	316 L stainless steel
Weight	5kg (10 lbs)
Dimensions	246.8 x 140.4 x 115 mm (L, H, W)
