

DATA SHEET CONVERTER 6.6A 24VDC

ELECTRICAL DATA

THE CONVERTER 6.6A 24V HAS BEEN DESIGNED TO CONVERT ANY AC CURRENT BETWEEN 2.8A TO 6.6A INTO 24VDC.

INPUT: AC 2.8A to 6.6A

OUTPUT: 24 VDC

MAX POWER SUPPLY: 75W

POWER FACTOR: 0.95

DIMENSIONS:

125 x 113 x 35 mm

Input

2 Fixing holes diam 4.5mm,
Center distance 137mm

output

PACKAGING:

Aluminium box used as a radiator for some high rated components.

The PCB is encapsulated with a special thermal resin and is protected against moisture.

The resin provides a good heat distribution.

TEMPERATURE RANGE:

Wide range due to the use of analogic components only

-40°C +65°C
